

## **Hoarding Risk Matrix Score**

### **Appendix 2: Clutter Index Rating**

As people may have vastly different understandings of what a cluttered home may be, it can be difficult to effectively communicate the concerns about someone's circumstances. The clutter index seeks to remove the subjective element of assessment.

The clutter index provides images for a kitchen, bathroom and living room, to support assessment of the situation.

The images and rating (1-9) can be a highly effective tool for communicating concerns and in supporting the assessment of risk to people living in that environment.

### Clutter Image Rating – Kitchen

Please select the photo below that most accurately reflects the amount of clutter in the room.
